

FMS Tutoring Opportunities

Fairview Middle School has high expectations for every student to succeed. In order to make this happen, we are offering extra

help opportunities for students who need to complete homework, class work, or just need a little more practice. This is a free service offered to any FMS student each Tuesday and Thursday from 3:15 to 4:45.

Tutoring may be helpful for....

- Graded assignments needed to be made up
- Absences that cause a student to get behind
- Extra help on non-mastered standards
- Computer access for students who need it
- Group projects
- A positive environment for students to have that extra boost to be successful in content knowledge.

This service is being provided to help our students reach the highest level of their potentials. Students are only allowed to stay if they have talked with a teacher, counselor, or administrator and come prepared with what they need to work on. They must also turn a Parent Permission form. Parents must provide the reason for their child's stay on the Parent Permission Form. Students will not be allowed to stay if the permission form is not signed by a parent/guardian. Permission forms may be picked up in the office, from a teacher, or printed from our website at fvm.ccboe.org.
